BlueView Signs OEM Agreement with SeeByte.

Seattle, Washington, August 2, 2011 –BlueView Technologies the world leader in compact acoustic imaging and measurement technology, and SeeByte the global leader in creating smart software technology for unmanned systems agreed to expand the capabilities of BlueView’s sonar systems with advanced sonar analytics software from SeeByte.

BlueView Technologies COO Jason Seawall commented, “Having successfully worked with SeeByte in the past and witnessed the impact of their software when utilized with our sonar, we believe that this agreement will take BlueView to a new level by enabling advanced features that our customers will find invaluable.”

Bob Black, CEO at SeeByte also commented on the agreement by adding, “Our software driven capabilities will provide BlueView Technologies with a fantastic new capability for their globally recognized range of sonar systems. We look forward to supporting BlueView as they deliver higher value solutions to their customers.”

BlueView is the leader in 2D imaging and 3D scanning sonar solutions with more than 500 installed systems worldwide. BlueView Technologies’ advanced sonar systems are currently deployed on AUVs, ROVs, surface vessels, fixed installations, and portable tripods, and have been adopted by leading manufacturers and service providers to support mission critical operations. BlueView customers enjoy a low cost of ownership with reliable operation, exceptional service, in-person training, extensive online information, and worldwide after-sale support.

SeeByte is renowned for the development and application of software base solutions for the offshore energy and military sectors. SeeByte software adds enhanced capability to a range of underwater sensors, vehicles and integrated systems.

ABOUT BLUEVIEW TECHNOLOGIES

BlueView Technologies, Inc. provides state-of-the-art compact acoustic imaging and measurement solutions for navy, energy, civil engineering, transportation and port security applications worldwide. Visit www.blueview.com.

ABOUT SEEBYTE

Founded in Edinburgh, Scotland, SeeByte has been creating the most advanced awareness control systems for the latest generation of unmanned systems, including autonomous underwater vehicles and remotely operated vehicles since 2001. These technologies have been successfully integrated into land, air and sea solutions for the military and security, offshore and subsea, and renewable energy sectors. These integrations have earned a remarkable number of world-first technologies that showcase the unique capabilities and SeeByte’s innovative drive.
