BlueView In-Water Demos at Ocean Business 2011 in Southampton, UK Apr. 5 -7, 2011

Seattle, Washington, March 15, 2011 – BlueView Technologies the world leader in compact acoustic imaging and measurement technology will demonstrate its P900-130 2D Imaging Sonar and the BV5000 3D Mechanical Scanner dockside at Ocean Business 2011. The live, in-water demonstration will showcase the capabilities of both systems, and enable attendees to see first hand the data and image quality that BlueView has become known for.

Visit with BlueView associates at Ocean Business stand T2 to learn about the latest high-resolution 3D, AUV, and 2D acoustic imaging and measurement solutions available today.

BlueView is the leader in 2D imaging and 3D scanning sonar solutions with more than 500 installed systems worldwide. BlueView Technologies' advanced sonar systems are currently deployed on AUVs, ROVs, surface vessels, fixed installations, and portable tripods, and have been adopted by leading manufacturers and service providers to support mission critical operations. BlueView customers enjoy a low cost of ownership with reliable operation, exceptional service, in-person training, extensive online information, and worldwide after-sale support.
