BlueView Receives Large Order From Seatronics, Ltd.

Seattle, Washington, March 18, 2011 – BlueView Technologies, the world leader in compact acoustic imaging and measurement technology, received an order for another twenty (20) high-resolution P900-130 Imaging Sonar systems, and another BV5000-1350 3D Mechanical Scanning System from Seatronics, Ltd. In the coming months BlueView will deliver the systems to Seatronics offices around the globe in part to increase their international lease pool. These systems include some of BlueView's latest system options including built-in Ethernet extenders, and oil compensated electronics for a 4,000 meter depth rating.

"The BlueView equipment has been extremely popular with service providers in the global oil and gas market, and our recent order is the direct result of the growing demand for BlueView instruments" said David Currie, Managing Director for Seatronics, Ltd.

"Working with Seatronics enabled BlueView to bring our latest high-resolution acoustic imaging and measurement solutions to the global oil and gas market," said Jason Seawall, BlueView COO. Seawall added, "We are very excited to grow our oil and gas business globally, and our partnership with Seatronics is exactly the fit we were seeking with a global business partner".

BlueView is the leader in 2D imaging and 3D scanning sonar technology with more than 500 installed systems worldwide. BlueView Technologies' advanced sonar systems are currently deployed on AUVs, ROVs, surface vessels, fixed positions, and portable tripods, and have been adopted by leading manufacturers and service providers to support mission critical operations. BlueView customers enjoy a low cost of ownership with reliable operation, exceptional service, in-person training, extensive online information, and worldwide after-sale support.

ABOUT BLUEVIEW TECHNOLOGIES

BlueView Technologies, Inc. provides state-of-the-art compact acoustic imaging and measurement solutions for navy, energy, civil engineering, transportation and port security applications worldwide. Visit www.blueview.com.
