## **BlueView Signs Representative Agreement with Roper Resources, Ltd.**

Seattle, Washington, November 22, 2011 – BlueView Technologies the world leader in compact acoustic imaging and measurement technology has added Roper Resources, Ltd. as an authorized commercial sales representative in Canada. Roper Resources has a long history of serving the Canadian marine industry providing a wide range of equipment including Remote Operated Vehicles (ROVs), Autonomous Underwater Vehicles (AUVs), robotics, underwater sensors, and accessories.

Chris Roper, Principal said "BlueView's compact, high-resolution multibeam imaging sonar systems and 3D scanners are high demand instruments for underwater operations. The versatility of their systems, ease of deployment, advanced technology, and outstanding customer support will make it easy for us to bring new opportunities to BlueView."

"I knew Chris prior to starting at BlueView, and am excited to join forces with him," said Beto Campos, BlueView's Director of Global Commercial Sales. "He's going to have a major impact in bringing BlueView's solutions to the Canadian marine industry," Campos added.

BlueView is the leader in 2D imaging and 3D scanning sonar solutions with more than 500 installed systems worldwide. BlueView Technologies' advanced sonar systems are currently deployed on AUVs, ROVs, surface vessels, fixed installations, and portable tripods, and have been adopted by leading manufacturers and service providers to support mission critical operations. BlueView customers enjoy a low cost of ownership with reliable operation, exceptional service, in-person training, extensive online information, and worldwide after-sale support.

### **ABOUT BLUEVIEW TECHNOLOGIES**

BlueView Technologies, Inc. provides state-of-the-art compact acoustic imaging and measurement solutions for navy, energy, civil engineering, transportation and port security applications worldwide. Visit [www.blueview.com](http://www.blueview.com).
