FOR IMMEDIATE RELEASE

Seattle, WA– Inc. Magazine recently released its Inc. 5000 list of the fastest growing private companies in America. BlueView Technologies Inc., the world’s leading provider of miniature multibeam imaging sonar, earned the overall position of 720 and a ranking of 24th in the category of manufacturing with a three-year rate of growth at 397.7%.

”We are honored to be named to the Inc. 5000 list as it is a tremendous testament to the hard work of the company as a whole and our commitment to customer service,” said BlueView CEO Dr. Lee Thompson. “BlueView has been growing at a significant rate since our inception and we expect that growth to continue as we develop a greater range of applications world wide. The Navy, Homeland Security and Oil & Gas markets in particular have been very receptive to our Underwater Vision™ solutions.”

“Since debuting in 1991 with 100 of the fastest growing private U.S. companies, then expanding the following year to the Inc. 500 and again in 2007 to the Inc 5000, the list has served as evidence of the significant accomplishments of entrepreneurial companies,” said Inc. Editor Jane Berentson. “As an Inc. 5000 honoree BlueView Technologies shares a prestigious pedigree with some of the most successful businesses in America.”

Methodology

The Inc. 5000 is ranked according to percentage revenue growth from 2005 through 2008. To qualify, companies must have been founded and generating revenue by the first week of 2005, and therefore able to show four full calendar years of sales. Additionally, they have to be U.S.-based, privately held, for profit, and independent -- not subsidiaries or divisions of other companies -- as of December 31, 2008. Revenue in 2005 must have been at least \$200,000, and revenue in 2008 must have been at least \$2 million. The top 10 percent of companies on the list comprise the Inc. 500, now in its 28th year.
